

Fuel Tank Drill

The quickest way to remove fuel from End of Life Vehicles

Return on Investment

- Recover valuable petrol and diesel from the tank of a vehicle
- Unique fuel cleaners to remove water and sediment and provide you with reusable fuel
- Low consumable costs

Fast and efficient

- Built specifically for purpose— our most popular fuel removal product
- Safe and easy to use
- Saves time by pneumatically lifting to meet the fuel tank.
- Drills the same size hole every time
- Fuel cleaners also serve as a sight glass

Safe to use

- Fully ATEX, DSEAR and HSE compliant
- Closed system which removes petrol, diesel and petrol vapour

Autodrain's Fuel Tank Drill can be used in conjunction with our Workshop Fuel Scavenger to provide suction. If your vehicle processing volume increases, it can also be used with our Fixed Fuel Scavenger to pipe the fuel directly to storage. This type of modular system is perfect for increasing your productivity, efficiency and profits.

Fuel Tank Drill

The quickest way to remove fuel from End of Life Vehicles

AutoDrain's unique water and sediment separation system is included as standard with your Fuel Tank Drill. This ensures that you retrieve clean, reusable fuel from End of Life Vehicles. The separation system also serves a dual purpose as a sight glass. Both single and double options are available depending on your business needs.

Watch our video online at www.autodrain.net to see how safe and easy to use the Fuel Tank Drill is.

FACT!

Petrol is a highly explosive material and working with it is a potentially dangerous activity. The Fuel Tank Drill ensures that you drain fuel in a safe way as it doesn't use a spike to pierce the tank. No drip trays are used, as these can cause a lethal build up of petrol vapour that cannot disperse safely.

Training

Training is vital to ensure you maximize the profitability and longevity of your Fuel Tank Drill and we have the following training options available for you:

- 1 Free online training information and video
- 2 Certificated training at our own ATF in Leeds- price on application
- 3 Certificated training on your site- price on application
