

# Oil Away

Drains vehicle oil straight from sump to pump to storage tank

## >> **A unique concept**

- Assists lean servicing in all types of vehicles
- Oil is drained straight from sump direct to oil tank, reducing operators' contact with carcinogenic oil.
- Drain and refill the system in seconds!

## >> **Clean and safe**

- The unique leak free twist connection means no spills or messy drip trays.
- The oil will not come into contact with anyone's skin, eliminating burns and contact with oils and keeping your workshop safe.
- Complies fully with all Health and Safety regulations.

## >> **Efficient and cost effective**

- Services vehicles quickly, saving time and money while not compromising on Health and Safety.
- Can be installed into your existing workshop or as part of a new build.
- Oil can be drained while it is still red hot, cutting out time waiting for the oil to cool.
- Oil can be refilled through the sump plug, increasing efficiency.

**AutoDrain can also offer a range of storage tanks for oil and a mobile Oil Away option for operating service vehicles which can also dispense fresh oil.**

**So if you want to assist lean servicing in trains and keep a clean safe workshop, you need to call AutoDrain today!**
